FOUNDATION

TRANSFORMING TOMORROW

STRATEGY • PLAN • OPPORTUNITY

Partners for Progress

WinnMed continues to grow to meet the needs of the broader eight-county region. With new specialties, new technology and a growing primary care base, we have outgrown our current campus. To address our space needs and propel WinnMed into the future, The Transforming Tomorrow expansion and renovation project on the Decorah campus is underway.

Transforming Tomorrow project costs are budgeted at \$50 million and will be financed in large part from low-interest USDA loans, WinnMed dollars and loans from local banks.

WinnMed's success is built on the dedication of our exceptional staff. With Transforming Tomorrow, we are expanding and renovating our facilities in a way to match the excellence of our physicians, advanced practice providers and our broader employee base. These are exciting times at WinnMed as we grow into the future for our community friends and families.

WinnMed Foundation is focused on financially supporting WinnMed's hospital and clinic expansion and renovation projects over the next few years. You will see the campus transform to meet the growing needs of the region.

We invite you to join us on this journey of growth, hope, and transformation.

*- The WinnMed Foundation Board,
Board of Trustees, and Administration*

Project Highlights

A fully renovated birthing unit featuring six labor, delivery, recovery and postpartum suites, and direct access from obstetrics to surgery for patients needing a C-section.

An expanded surgery area to accommodate new technology and an additional operating room to meet the growing volume of surgical practice.

A two-story addition to house expanded primary and specialty clinics, allowing for additional access, growth, improved patient experience, and promotion of team-based care.

OBSTETRICS

COST: \$3 Million

NAMING OPTIONS:

Birth Suite - \$50,000

Nursery - \$75,000

The renovated unit will include six birthing suites. Families will be welcomed into a new space where they labor, deliver, and stay in one room during their visit at WinnMed.

SURGERY

COST: \$15 Million

Technological advances in healthcare are constant. Our new surgery addition will feature a large operating room to accommodate technology growth services.
